RESET. RETHINK. RECHARGE.

The pace of global crises and technological developments has drastically accelerated over the past ten years. Climate change, geopolitical tensions and the rise of Artificial Intelligence have reshaped how senior leaders must think and operate.

The premise of SISTRUM Executive Retreats is that to be effective and credible as a leader today requires not only a clear purpose and strategy but also *the ability to see oneself as an actor on the world stage whose actions must be inspired by a clear global point of view.*

Each retreat blends the perfect ingredients for today's Presidents, CEOs and Board Chairs or Directors:

A prestigious **high-end resort**, offering opportunities for a personal reset and deep reflection, aided by a choice of wellness activities.

Top speakers on pressing **issues** such as AI, geopolitics, global capital markets and leadership, offering participants actionable insights on global developments.

Executive **coaches with impeccable CEO level credentials** who will support participants during and post program.

THE PROGRAM 2026 GLOBAL LENS

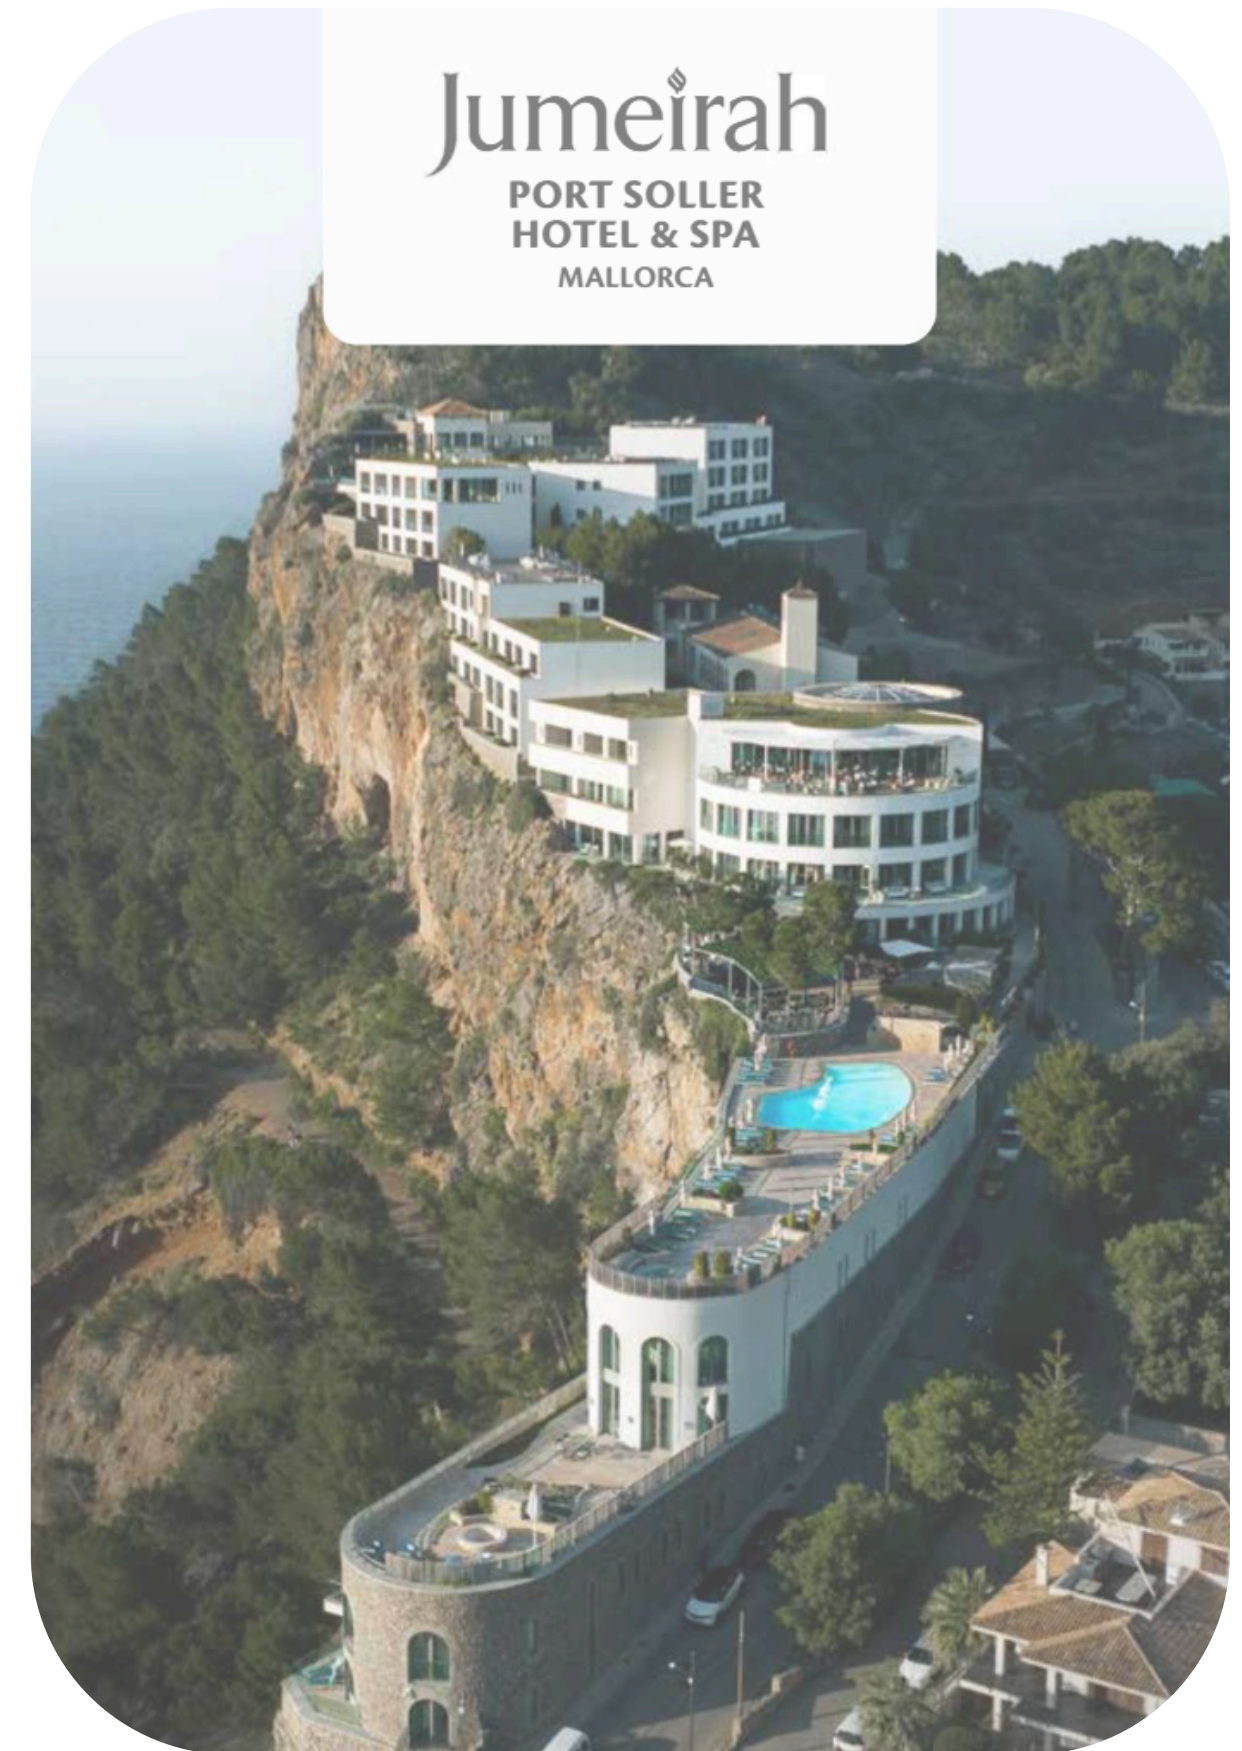

In 2026, the world is experiencing continuous shock waves: not only is the unsolvable war in Ukraine dragging on but the conflict with Iran has triggered a security and energy crisis. The exponential rise of AI continues to fuel a global tech race, while tariffs and trade ride high on the minds of global business leaders.

Our 2026 Sistrum retreat will address these global business and geopolitical developments over a 2.5-day intimate gathering at the stunning Jumeirah Hotel & Spa in Port Soller, Mallorca. The event is designed to help CEOs and Board Chairs:

Explore how the **global geopolitical reset and active conflicts in Europe and the Middle East** will impact global trade and the macro-economic environment in 2026 and beyond.

Frame **AI's impact** on tech sector investment, organization strategy, innovation and global industrial competitiveness.

Develop personal **resilience, wellness and mental agility** to navigate global challenges and maintain a positive leadership focus and energy.
